# House of Lords Report Recommendation

## Conclusion / Recommendation 70:

- **The Licensing Act 2003 should apply fully airside at airports, as it does in other parts of airports.**  
(Paragraph 620)

# Government response

- The Government shares the Committee's view that everyone should be able to enjoy a safe and disruption-free environment when using airports,
- Further engagement with affected parties is required to consider the full effects of the Committee's recommendation. On 21 July, the Government published its call for evidence as part of its work to develop a new UK Aviation Strategy.
